Sedrah Abosamrah

ARTIFICIAL INTELLIGENCE ENGINEER

Riyadh - Saudi Arabia | +966 50 720 8642 | Sedrah.aa@hotmail.com | https://www.linkedin.com/in/sedrah-abosamrah/

Summary

I'm an enthusiastic Artificial Intelligence engineer who enjoys exploring the field. I've worked on projects that have given me practical experience in machine learning and computer vision. In addition to my AI expertise, I have hands-on experience in frontend development, creating user-friendly interfaces that enhance digital experiences. My dedication to continuous learning and innovation drives me to develop creative solutions that address real-world challenges. I'm excited to apply my skills to projects that push the boundaries of artificial intelligence and technology

Education

Bachelor Degree of Artificial Intelligence Engineering 2020-2024

Bahçeşehir University - Turkey

Work Experience

Freelance AI Engineer | AI Integration & QA Testing — 08/2026 – Present

Rawyah – Riyadh, Saudi Arabia (Remote)

- Evaluated and tested AI translation APIs and local models and comparing performance.
- Worked on AI integration planning, including API evaluation, tool assessment, and feasibility analysis.
- Conducted UI/UX reviews and QA testing, identifying bugs and usability issues.
- Prepared detailed bug reports, technical documentation, and improvement recommendations for developers.

AI Engineer - 11/2025-05/2026

QSS AI & ROBOTICS Company, Riyadh,SaudiArabia

- Worked on computer vision projects involving object detection and image processing.
- Performed data annotation and dataset preparation for model training.
- Worked on the Catrion Jeddah Lounge project by cleaning and organizing image datasets, removing duplicates, Annotation.
- **Key Achievement:** Contributed to the company's mini-factory object detection project, which was showcased to visiting clients and guests.

Freelance Frontend Developer 01/2024 - 04/2024

- Developed responsive and user-friendly frontend pages for a website in the architecture domain using HTML, CSS and JS

AI Engineer - 08/2023 - 09/2023

Jeraisy Group Company - Riyadh,SaudiArabia

- Delivered presentation on advancements in AI technologies to diverse audiences.
- Introduced Generative AI and its ability to create various types of content such as text, images, and code.

Projects

- **Barn's Café Cup Detection & counting system:** Annotated the dataset and trained a detection model (best.pt) to identify and count cups within the ROI area, with confidence scoring for each detection.
- **QSS company Mini factory objects detection**: Implemented a YOLO-based computer vision solution for mini-factory objects detection with real time frontend integration using WebSocket.
- **Catrion project jeddah lounge** : Prepared image datasets by removing duplicates, sorting people images, and annotating data for Hospital Automated gate for mask detection: Developed a computer vision system using OpenCV and a YOLO model for automated hospital gate access through face mask detection and entry verification
- **Automated Claim Verification Auditor using VLM model**: Built a PDF claim auditor using PyMuPDF, EasyOCR, and VLM to extract and verify multi-page insurance data
- **Drone detection & tracking**: Developed a drone detection and tracking pipeline using YOLO, including frame extraction, image annotation, model training, and testing.
- **Movie Search Web**: Developed and deployed a Movie Search Web Application using HTML, CSS, and JavaScript with OMDb API integration for real-time movie data retrieval and interactive content rendering

Technical & Soft Skills

- Programming Languages: Python, R, HTML, CSS, JS
- Computer Vision: OpenCV, EasyOCR, YOLO, VLM Models
- Machine Learning: scikit-learn, pandas, matplotlib, NumPy
- Deployment & API: Streamlit, API Integration
- Data & Analysis: Data Analysis, Power BI
- QA & Documentation: QA Testing, Bug Reporting, Documentation
- Tools: Microsoft Office, Canva

- Creativity & Innovation
- Problem-Solving
- Reporting & Documentation
- Time Management
- Communication & Presentation Skills
- Teamwork & Collaboration

Certificates

- University Honour Roll Certificates
- Google cloud Certificates : Generative AI Fundamental ,Intro to Generative AI ,Intro to Large Language Models.

Languages

Arabic: Native **English:** Fluent **Turkish:** Intermediate
